<u>TITLE</u>	<u>GRADE</u>	<u>EEO-4</u>	<u>CODE</u>
NURSERY SPECIALIST III	35	B	1.880
NURSERY SPECIALIST II	33	B	1.881
NURSERY SPECIALIST I	30	B	1.882

SERIES CONCEPT

Nursery Specialists perform or supervise the production, cultivation and care of plant material in nursery facilities for statewide use for conservation purposes.

Supervise and perform planting and transplanting, irrigation, fertilization and pest control activities; establish orchard seedlings to ensure adequate seed and plant material is available for production needs; collect and secure seeds; and maintain potting media and containers in accordance with nursery production schedules.

Abate insects, diseases and rodents to ensure orchard and nursery plants are free from pests; remove competing weeds in and around nursery facilities.

Oversee State personnel and, as necessary, prison inmates involved in nursery activities including prescribed training and safety requirements; complete sales/order forms and daily sales reports; update inventory listing of all plant materials and equipment and enter data into system to assist in short and long range nursery program planning.

Disseminate information to the public on the use and availability of plants over the counter, by telephone, through plant material displays, price listings, information hand-outs and visual aids; develop or assist in the development of promotional and educational materials such as lists, pamphlets, brochures, news releases, and questionnaires.

Construct or assist in the construction of nursery facilities which conform to all local codes and ordinances and in the installation and repair of plumbing, electrical and structural fixtures to ensure optimum nursery operations; oversee and perform building repairs, minor construction projects, and maintenance on nursery equipment and vehicles.

Prepare financial and statistical reports including quarterly and annual reports; gather, compile, review and evaluate information related to sales, production and demand; establish appropriate pricing structures and production schedules to ensure cost-effectiveness; develop, administer and monitor nursery budget; purchase and order operating supplies, raw materials, plants, seeds, and chemicals, in accordance with State and division policies and procedures.

Establish and review nursery operational procedures in order to achieve program objectives; coordinate the nursery program with other division programs and federal, State and local agencies and organizations.

Perform related duties as assigned.

CLASS CONCEPTS

Nursery Specialist III: Under general supervision of the Natural Resource Program Manager, incumbents manage a statewide nursery program in addition to performing the full range of duties outlined in the series

NURSERY SPECIALIST III	35	B	1.880
NURSERY SPECIALIST II	33	B	1.881
NURSERY SPECIALIST I	30	B	1.882
