SERIES CONCEPT

Quality Assurance Specialists design and implement a comprehensive quality assurance program encompassing clinical and related disciplines at a mental health hospital, residential care facility or community-based program or service for individuals with intellectual disabilities who may also have significant physical and/or mental health issues, rehabilitation facility, or a clinic which provides outpatient medical and psychological services, or the medical system for the Department of Corrections. Incumbents objectively and systematically review and evaluate the quality and appropriateness of client care and services, identify opportunities for improvement, and work with administrators and staff to resolve identified problems and deficiencies.

Review and evaluate appropriateness of client services including access, outcomes and prevention; conduct case reviews including customer interviews and surveys, medical/clinical and case records, facility inspections, and agency/facility policies and procedures; assist in identification of problem areas; monitor high risk/impact areas and processes vulnerable to litigation, adverse publicity, or involvement of law enforcement.

Evaluate compliance with applicable accreditation, licensing, health and safety, and funding requirements; develop recommendations for corrective actions including serving on committees, providing written reports and summaries, and presenting findings to administrators and department staff; review citations and plans of correction from State, federal, and accreditation reviews; participate in developing corrections and monitor corrections for compliance.

Provide technical guidance to agency staff and/or contractors regarding quality assurance/improvement activities and requirements; ensure agency/facility staff, contractors and administration are aware of accreditation, licensing, funding, and human rights requirements; provide training to staff, providers, and outside agencies regarding federal and State regulations, program requirements, policies and procedures, accreditation standards, client rights, consent and confidentiality issues, due process, documentation and communication related topics, and other areas as required.

Review reports of incident, abuse and neglect, rights violations, sentinel events, serious incident, treatment appeals and complaints; ensure applicable regulations and reporting requirements are followed; conduct investigations and contact outside enforcement agencies as appropriate; ensure client confidentiality and privacy as well as the security of documents, reports, and findings.

Coordinate agency efforts to achieve and maintain accreditation; develop quality assurance/improvement criteria and methodology; coordinate self-assessments using accreditation standards; research, develop and collate data for pre-survey information packets; coordinate, write, and organize information incorporated into official corrective action plans submitted by the agency in response to survey or statements of deficiencies and findings.

Prepare narrative and statistical reports; participate in budget preparation; monitor and control expenditure of funds for staffing, equipment, supplies and other areas as required.

Perform related duties as assigned.
CLASS CONCEPTS

Quality Assurance Specialist IV: Under general direction, the Quality Assurance IV is assigned to plan, organize and conduct quality assurance and utilization reviews of medical, dental, psychological, pharmacy, and other therapeutic services provided by the Department of Corrections’ eight correctional institutions, thirteen honor camps, and two restitution centers. In addition, this position oversees and monitors inmate health care services provided by physicians, laboratories, hospitals, and other providers located in the community.

Evaluate department policies, procedures and practices in relation to internal and external rules, regulations, and community standards; identify problems relating to treatment methodology, standards of care, and inmate health services; conduct and serve on committees to formulate solutions to service delivery problems and medical records maintenance; confer with medical staff to assess care provided and make appropriate recommendations.

Develop and coordinate the utilization management system to monitor the daily progress of hospitalized inmates; audit medical records of inmates receiving care within the department’s health care system to identify patient care problems and variances from accepted standards of practice, and perform specific case reviews and conduct special investigations as requested.

Conduct and/or serve on committees related to quality of care; conduct quality improvement studies and summarize results for administrative staff; provide staff training related to quality improvement; respond to the Governor, Legislature, members of the community, and inmate families regarding quality of health care provided.

Train, supervise and evaluate the performance of professional, technical and clerical staff as assigned.

Quality Assurance Specialist III: Under general direction, incumbents design, implement, and oversee a comprehensive quality assurance program encompassing community-based programs and inpatient services at a mental health hospital or residential facility for individuals with intellectual disabilities who may have significant physical and/or mental health issues; interpret State and federal regulations regarding licensure, certification, health and safety; lead and participate in evaluation of facility, program and/or agency policies, procedures and practices in relation to internal and external rules, regulations, and accreditation standards; identify problems relating to treatment methodology, standards of care, and client services; conduct and serve on committees to formulate solutions to service delivery problems and medical records maintenance; conduct special investigations related to the delivery of health services and prepare reports as requested; serve as liaison to accrediting and regulatory agencies to achieve and maintain facilities licensure/accreditation; supervise professional, technical, and clerical staff as assigned.

Quality Assurance Specialist II: Under direction, incumbents at this level either 1) report to a Clinical Program Planner, agency manager or other administrator in an agency's central office, or 2) report to a Quality Assurance Specialist III and assist in performing quality assurance/improvement activities for inpatient services at a mental health hospital, residential facility or for community-based programs and services. Incumbents participate in the evaluation, design, and implementation of quality assurance/improvement activities for programs and services provided by the agency which may include collecting data to evaluate services, summarize findings, and prepare recommendations for improvement; participate in special analytical studies, research and projects; and assist in monitoring grant funds including researching information for participants, coordinating committee functions, and completing annual reports.

Quality Assurance Specialist I: Under close supervision, incumbents receive training in the performance of duties outlined in the series concept. This is the trainee level in the series and provides for progression to the
CLASS CONCEPTS (cont’d)

Quality Assurance Specialist I (cont’d)

next level upon meeting minimum qualifications, satisfactory performance and with the approval of the appointing authority.

MINIMUM QUALIFICATIONS

SPECIAL REQUIREMENTS:

* Some positions require experience applying and interpreting standards including, but not limited to, The Joint Commission (TJC), Accreditation Council Outcome Measures, Medicaid guidelines and/or Centers for Medicaid and Medicare Services regulations in a health care setting or applicable State standards. Such requirements will be designated at the time of recruitment.

* Pursuant to NRS 284.4066, some positions in this series have been identified as affecting public safety. Persons offered employment in these positions must submit to pre-employment screening for controlled substances.

INFORMATIONAL NOTES:

* Some positions require applicants to meet federal guidelines for Qualified Intellectual Disabilities Professional (QIDP) designation or have an Early Childhood Special Education teaching endorsement at the time of appointment and as a condition of continuing employment. Such requirements will be designated at the time of recruitment.

* Pursuant to NRS 632, a Bachelor’s degree from a school of professional nursing approved by the State Board of Nursing is equivalent to a Bachelor’s degree from an accredited college or university.

QUALITY ASSURANCE SPECIALIST IV

EDUCATION AND EXPERIENCE: Bachelor’s degree from an accredited college or university in nursing or related field and four years of professional experience in an institutional setting reviewing and evaluating health care, mental health care, or disability services including performing program evaluation, quality assurance/improvement, and/or utilization review activities; OR an equivalent combination of experience and education, above the Bachelor’s degree level, as described above. (See Special Requirements and Informational Notes)

ENTRY LEVEL KNOWLEDGE, SKILLS AND ABILITIES (required at time of application): Working knowledge of: quality assurance and/or utilization review audit and compliance activities including application of community and regulatory standards; application of the nursing process including assessment, diagnosis, planning, intervention and evaluation as applied to quality assurance and utilization review activities; uses, effects, side effects and interactions of commonly prescribed medications for physical ailments and psychological problems; laboratory tests and diagnostic procedures; typical courses of a variety of illnesses, injuries and conditions; physical restraint techniques and procedures appropriate to specific situations in a correctional setting; agency policies and procedures related to healthcare services and standards; principles and practices of supervision and training. Ability to: read and interpret court orders and decisions related to inmate health care; assist the Quality Improvement Committee in internal investigations related to quality of care issues; monitor the care of inmates hospitalized outside the correctional system; supervise and evaluate the performance of assigned personnel; solicit cooperation of staff in identifying needed changes and formulating solutions; prepare each hospital service area for audits; train, supervise and evaluate the performance of assigned personnel; and all knowledge, skills and abilities required at the lower levels.
