**SERIES CONCEPT**

In the Records, Communications and Compliance Division of the Department of Public Safety, NCJIS (Nevada Criminal Justice Information System) Program Specialists provide training, conduct on-site compliance audits, provide quality control, and coordinate system access, upgrades, or enhancements for NCJIS users and recipients of the system's criminal justice information to ensure compliance with user agreements, established policies and procedures, State and federal laws, and to maintain the integrity of the system.

Develop, plan, organize, and conduct system audits of all law enforcement, criminal justice, and public safety agencies utilizing NCJIS for the purpose of ensuring awareness and compliance with established policies and procedures as well as State and federal laws; conduct audits of the civil applicant and name check programs; coordinate audits with agency staff and develop detailed audit reports.

Monitor system and develop long range plans in conjunction with established policies and State and federal laws; monitor and review user programs and operations and develop system policies and procedures and various related publications to ensure compliance with State and federal requirements; work with designated agency terminal coordinator by providing training, direction, and assistance in the proper method of systems management and resolution of system problems.

Coordinate system access for approved agencies, including system upgrades or enhancements, ensuring that-access to the system conforms to State and federal regulations and department policies and procedures; interview users and conduct research to identify and document user requirements and changes; coordinate user acceptance testing prior to implementation.

Develop methods and procedures to ensure that agencies entering data and accessing criminal justice information comply with established State and federal guidelines; maintain records and reports and conduct follow-up reviews and audits; investigate findings or reported cases of noncompliance or misuse of confidential information.

Plan, develop, implement, coordinate, and conduct training programs for system users including system use and policies and procedures; develop a training curriculum and course outline, and conduct research regarding related training material, State and federal laws, policies and standards concerning system parameters; prepare training aids, material, and examinations; evaluate training and training materials effectiveness and recommend and/or implement changes in course curriculum.

Respond to agency inquiries and provide assistance regarding system operations, policies and procedures, and applicable laws to maintain compliance; explain provisions and application of laws.

Perform related duties as assigned.
