Unclassified Position Announcement

NATURAL RESOURCES MANAGER

The Colorado River Commission of Nevada (Commission) is seeking qualified applicants for the position of Natural Resources Manager. This is an unclassified, full-time position within the Nevada State Government.

Recruitment: Open to all qualified candidates, vacancy in Las Vegas, Nevada.

Salary: Depending on experience, up to \$120,639.00/year
Salary range reflects retirement (PERS) contributions by both the employee and employer. An employer paid contributions plan is also available with a reduced gross salary.

Applications Will Be Accepted Until: October 28, 2015

The Position

The Colorado River Commission of Nevada (Commission) is seeking a highly qualified natural resource professional to manage its Natural Resources Group.

Background

The Commission's responsibility is to acquire, manage, and protect Nevada's water and hydropower resources from the Colorado River. An integral component of this responsibility is the Commission's involvement in various environmental and natural resource programs.

Job Description

The Natural Resources Manager is responsible for the overall management of the Natural Resources Group. The position reports to the Commission's Executive Director. The Natural Resources Manager shall be responsible for the:

- Direction and management of the Commission's activities in existing environmental and water programs including the Lower Colorado River Multi-Species Conservation Program, Colorado River Basin Salinity Control Forum, Glen Canyon Dam Adaptive Management Program, Lake Mead Water Quality Forum, Las Vegas Wash Coordination Committee, water accounting, hydrology reporting, Basin States Technical Group, and other programs of importance to the water and environmental responsibilities of the Commission.

- Serving as the Commission representative or alternate on various steering committees, work groups, or technical advisory panels related to natural resource issues.
- Support the Las Vegas Wash Coordination Committee, Nevada Water Resources Association, Colorado River Water Users Association, National Water Resource Association, Southern Nevada Drought Task Force, and other state, national, and international organizations as appropriate.
- Direction, management, and monitoring of water permit applications filed with the Nevada Department of Water Resources for potential impacts to the Commission's interests. When necessary, coordination with legal staff to file appropriate water permit applications or protests with the State Engineer and follow same through completion.
- Coordination and management of water related activities with the Southern Nevada Water Authority.
- Provision of technical and analytical support to activities with the other states, the United States Bureau of Reclamation, United States Department of the Interior, the State Department of the United States; including development of Colorado River Basin Annual Operating Plan, decree accounting, implementation of the 2007 Interim Guidelines, and Mexico operations.
- Provide litigation support and other technical and strategic support as necessary for the legal staff.
- Supervision of natural resources staff and responsibility for recruitment, mentoring, evaluating, and developing personnel in the Natural Resources Group.
- Coordination with other groups within the Commission.
- Development of short- and long-term strategic planning.
- Member of Senior Staff team.

Required Skills

The Natural Resources Manager must have excellent organizational, management, diplomacy and communication skills and possess the ability to:

- Interpret, analyze, and develop comments on complex technical, scientific, and legal documents.
- Draft technical documents, contracts, analytical papers, and prepare Commission Meeting agenda items.
- Interact collaboratively with state, local, and federal officials.
- Work independently and efficiently.
- Understand and conduct appropriate interaction with outside interests on politically sensitive areas and policies.
- Demonstrate supervisory skills.
- Develop and analyze budget and accounting reports.

Required Education and Experience

The Applicant must have at least a Bachelor's degree from an accredited college or university and possess significant experience in the area of natural resources planning and development, including participation in regulatory environmental programs and more specifically in program planning, budget development, monitoring, and policy analysis and interpretation. Applicant also must have supervisory experience in the training and management of subordinate professional staff.

Submit a letter of interest, résumé, and salary history to:

Judy Atwood

Colorado River Commission of Nevada
