CLASS CONCEPTS (cont'd)

Mail Service Supervisor: (cont'd)

Ensure proper operation of automated mail processing equipment; contact service providers regarding equipment failures and malfunctions; make minor repairs and adjustments consistent with service agreements.

Post information to computerized records of postal accounts and prepare billings for services provided to agencies and departments.

Mail Service Technician: Positions at this level work under limited supervision and perform technical mail processing and oversight duties at an assigned mail service center. Incumbents may oversee mail service operations at a multi-campus community college where mail is processed manually, or train and provide work direction to a team of Mail Service Clerk II's engaged in mail processing activities using automated equipment such as barcoders, sorters, computerized scales and related equipment.

Oversee daily mail processing activities including sorting, bundling, delivering and receipt of letters and packages; ensure mail deliveries and pick-ups are completed in accordance with established schedules, timelines and agency/department needs.

Mail Service Clerk II: Positions allocated to this class either:

- 1) Supervise the work of lower level staff who process internal agency mail manually in a large State agency; or
- 2) Process mail in a mail service center that provides comprehensive services using automated equipment such as barcoders, sorters, UPS manifest system, mail accounting systems and various types of automated mailing scales.

Mail Service Clerk I: Positions allocated to this class work under close supervision and serve a single agency. Assigned duties are limited to sorting and distributing mail manually and delivering outgoing mail to the State Mail Services Center or federal post office.
